Germany's Policy in South Africa Catches Popular Feeling.

CLOSER TIES WITH THE TRANSVAAL

Big Order from Americans for German Machinery-More Than 200 Visitors from the United States at Budapest,

Berlin, May 25.—The resolution which was passed by the reichstag last Tuesday granting the government a credit of 2,000,000 marks for the purpose of adding 420 men to the military forces in German southwest Africa met with very slight opposition. The action of the house fitted admirably with popular feeling and has delighted the colonial jingoes, who continue diligently to advance their south African boom. The increase authorized by the resolution will give Major Leutwein, the administrator of affairs in German southwest Africa, command of 1,000 effective troops, which are regarded as ample to suppress the rising of the natives in that territory. The origin of the outbreak among the natives has not been officially explained, but the uniform belief of the colonial party that the rising was fomented by British intrigue was given expression during the debate on the credit reso-

Germany and the Boers.

It is not the prospect of crushing the negroes in southwest Africa, however, that elates the colonial party in Germany. The Neueste Nichrichten, which is the foremost of the colonial organs, makes no concealment of the hopes of the colonials and reveals perhaps more of the aims of the government than is obvious on the surface. The paper, after remarking that there is a community of interest between the Transvaal and German southwest Africa, despite the fact that the two territories are separated by Bechuanaland, adds that by means of the force of 1,000 men which Maj. Leutwein will have at his command Germany will acquire a position in southwest Africa, the influence of which is already felt in Cape Town. The general situation, the Neueste Nachrichten continues, has undergone a change, and the Boers now indirectly receive support, of which time will plainly display the effects.

For an Offensive and Defensive Alliance,

The annual meeting of the German nonkii society will be neid here on May 34, when a resolution will be submitted promising he support of the German government in promoting the mentrality of the Boer republic as most essential to the furtherance of German interests. This expression, however, will hardly have the effect of satisfying the more advanced of the colonials, who endorse the demand of the Neveste Nichrichten for the establishment of an offensive and defensive alliance between Germany and the Transvaal. The speech made by Joseph Chamberlain, British secretary of state for the colonies, upon the occasion of the South African annual dinner at the hotel Metropole in London Thursday evening in which he sharply criticised the Transvaal government in their vindictive treatment of the Johannesburg reform committee prisoners, is vehemently denounced by the entire German press.

Big American Order for Machinery.

American purchasers of German manufactures are devoting a great deal of attention to the Industrial exhibition, which is now running smoothly. Several orders have been lodged by Americans with one of the largest German firms engaged in the manufacture of machinery, aggregating 100,000 marks. Exhibitors of dry goods, however, complain of an utter lack of American orders. A great deal of interest is being taken in the Hungarian millennial celebration at Budapest, to which place it is expected that a large number of people will go from Germany during the summer. Reports received here say that there were more than 200 Americans in Budapest last week, the majority of whom went from there to Moscow to witness the coronation ceremonics. Before going, however, they ordered rooms reserved

for them pending their return. Wanamaker Negotiates for a Painting.

Hon. John Wanamaker of Philadelphia, formerly postmaster-general of the United States, during his recent visit here; entered into negotiations for the purchase of Munkaesy's latest painting, "Ecce Homo," but with what result is not known. The Khone, trotting horse owners of Hamburg, have purchased the American trotters Bullet and Glorin and the of artillery and four companies of Heerman brothers of Chorlottenburg have bought Doctor Austin and Lucy W. The horses will go into the possession of their new owners after the close of the West End races, in which

Defends the American Missionaries.

Dr. Irmer, governor of the Marshall islands, in the Pacific ocean, makes occasion, in a report recently received from him by the colonial department of the foreign office, to deny the truth American missionaries stationed upon those islands. Dr. Irmer pays high tribute to the maligned missionaries, who, he says, are peaceful and quietly devoting themselves to Christain work, holding themselves aloof from all agitation.

KICK OF THE "ANTIS."

Ex-Senator Platt Talks on the Political Situation To-day.

New York, May 25.—Ex-Senator Platt, talking about the political situation last evening, said it was now plain that the McKinley managers proposed to continue to the end their plan of claiming everything and conceding nothing, without regard for facts. The business men, he said, may confidently rely upon it, however, that their views will be expressed at the St. Louis convention, both as to maintenance of the gold standard and as to the nomination of a candidate who can stand on a gold platform. "New York will present such a candidate, and the votes of this state will be east for him almost unanimously," he continued. Regarding the Hon. Warner Miller, Mr. Platt said: "Miller having been elected a delegate at Gov. Morton's request, having attended the conference at which it was decided to place Gov. Morton in the field, and having been the first man there to adrocate that action, will be the governor's staunchest supporter in the convention. He says I must not speak for him, but I certainly can recall his record in the matter and can at least express enough confidence in his character as a man to say that he will keep faith with himself and make good his promises. What is true of Mr. Miller in this respect is similarly true of the orher delegates.

Same Old Kick of the "Antis."

"It should be plain to the public that all this McKinley hullabaloo in New York is simply so much empty sound. It will not affect the vote at St. Louis of a single New York delegate. It is a familiar noise. We hear it every spring and fall. It proceeds from the same old crowd of 'antis' who have been performing in this way these many years. They don't care a fig about McKinley; they simply make use of his name and position to aid their conspiracy for the overthrow of the republican organization.

He Is No Bolter,

"They are giving it out that my friends and I are preparing to boil the McKinley ticket. They will permit me to remark that my friends and I have no great reputation as bolters. In the history of the republican party of this state it is they, not we, who have had a monopoly of the bolting. The republican organization of New York, standing in the interest of the business community and a sound public sentiment throughout the country, will loyally support the nomination of Levi P. Morton at St. Louis and the adoption of a plain, unequivocal, direct pledge to the people that the gold standard shall be maintained and our currency system reformed on that basis. It will oppose the nomination of Major McKinley on the ground that he is a dangerous and misleading can-

Fighting for a Principle.

"If the opponents of the regular organization think they can make any more progress in their effort to smash things by belittling the money question and by opposing their party and its work, not upon any just ground, nor for any other purpose than simply te seize control of the organization and to 'down Platt,' why, let them go shead. We. for our part, are fighting for a principle, and we are entirely content to take our chances as against a group of grotesque politicans who ean find no more inspiring battle-cry than: 'Get on the band-wagon.'"

MAIL MATTER DESTROYED. Action of the Cripple Cock Postmaster

May Cause an Investigation. Cripple Creek, Col., May 25 .- Wagon after wagon load of mail matter was taken from the Cripple Creek postoffice yesterday to the city dump, where an attempt was made by the postmaster's assistant's to burn it. Many citizens went out to the dump and saved some of their mail. In nearly every instance mail thrown away was plainly addressed, the box number appearing in full view. Mail was there for some of the most prominent citizens of the camp. When Postmaster Rose was called upon for an explanation he said the burning was done on the authority of the postoffice inspector, and acknowledged that some mail was destroyed which ought not to have been. An official investigation will be made.

Cuban Tobacco Embargo Not To Interfere with Existing Contracts.

NO FORMAL PROTEST MADE TO SPAIN

Only a Note of Inquiry from Washington Received in Madrid-Cruiser Ensenada, with Weyler Aboard, Stranded Near Havaba.

Madrid, May 25.—A dispatch to the Imparcial from Havana save that the cruiser Ensenada, which left Havana Saturday with Capt.-Gen. Weyler and his staff on board, their intention being to make a brief inspection of the troops and defences on the northwest coast, stranded in at Cabanas, a short distance to the westward of Havana. Tugs were sent to her assistance, and Gen. Weyler and his staff were transferred to another vessel. The damage to the cruiser is not serious. Prime Minister Canovas del Castillo has announced that the United States government has not formally protested against the decree of Gen. Weyler forbidding the export of tobacco from Cuba, but had inquired as to Spain's intentions regarding existing contracts. These contracts, the prime minister adds. will be respected.

Weyler Returns to Havana.

Havana, May 25 .- Captain-General Weyler, who, with the vice-governorgeneral, Marquis de Ahumada, and the chief of the general staff, Gen. Ochando, who left here Saturday for Mariel and Bahia Honda, returned last evening on the gunboat Alerte. The cruiser Marquis de Ensenada, on which they sailed from Havana, grounded when attempting to leave the port of Cabanas. Gen. Molina reports an engagement with rebels under Bermudez and other leaders at Guacanar, near Consolation. The rebels were driven from their positions, leaving twelve dead on the field and carrying other dead with them. The troops lost twelve wounded, including Col Geiabert, whose wounds are serious.

SEVERED HIS JUGULAR VEIN. Hot Springs' Mayor Kills the King of the Doctors' Drummers.

Hot Springs, Ark., May 25 -One of most sensational killings that ever occurred in this city took place late Saturday night on Whittington avenue opposite the Catholic church. The principals were W. W. Waters, mayor of Hot Springs, and H. H. Martin. a. drummer, employed by doctors. Waters, since taking the office of mayor, has make a bold stand against the disreputable doctor drumming in this city. and has had many of the drummers arrested and heavily fined by the city court. Martin, who was the recognized king of the drummers, was arrested several days for drumming without wearing a badge and heavily fined by the police judge. Meeting Mayor Waters on the street Saturday night Martin stopped him and endeavored to get him to remit the fines. This the mayor positively refused to do and started towards his home. Martin followed and kept abusing him and finally caught him by the shoulder. A scuffle ensued, during which the mayor drew a knife from his pocket and cut Martin in the neck, severing the jugular vein. The latter died in ten minutes. Mayor Waters immediately gave himself up to the officers

Senate Begins Consideration of the Last Appropriation Bill.

OTHER SUBJECTS ON THE PROGRAMME

Final Adjournment Expected on August 8-The House Begins the Week Without Any Special Arrangement of Work.

Washington, May 25.-The senate committee on appropriations is surprised at the headway it has been able to make in the matter of pushing its bills through the senate, Of the fifteen great annual budgets all have now passed the senate except the general deficiency bill, and Mr. Hale, in charge of that measure, will call it up to-day. It is unusual for this bill to be reported so far in advance of the generally accepted date of adjournment, it being a catch-all for appropriations and deficiencies that cannot be got in until the last mement. Owing to the rapidity with which this bill has been acted upon, it may become necessary before adjournment to pass a small urgent deficiency measure covering items that the treasury may yet call to the attention of congress. It is expected that an agreement will be reached that will result in a vote on the Butler bond bill either to-day or to-morrow. The "filled cheese" bill, which Mr. Sherman is urging, is in a "parlous" shape owing to several pro-posed amendments. Now that the house has acted on the immigration bills before it, Mr. Lodge of Massachusetts will seek to pass one of the measures through the senate, so that, out of the many conflicting plans. some law may be secured which will remedy what are held to be existing evils in our present immigration statutes.

House of Representatives. The leaders in the house expect that

congress will reach a final adjournment for the session two weeks from to-day, which will be June 8. That was the statment made this morning by Representative Dalzell of Pennsylvania, a member of the committee on rules. The programme of business in the house in these two weeks will be a matter of arrangement from day to day, and only the most general outline can be given now. The comittee of affairs of the District of Columbia are entitled to the session to-day under the rules. The committee on rules are desirous of clearing up the election cases on the calendar, three of which, especially, will provoke some debate. They are: Murray vs. Elliott from the first district of South Carolina. Johnston vs. Stokes from the seventh district of South Carolina, and Mitchell vs. Walsh from the eighth district of New York. In all of these the committee reports recommending that the contestants be seated. In the case of Yost vs. Tucker, of the tenth district of Virginia, the committee recommends that Tucker retains his seat, but Gen. Walker, the single republican from that state, will make a vigorous effort to bring in a political colleague. It is the expectation that these cases will be disposed of this week, should the consideration of conference reports, which is always first, leave time enough.

MRS. HILL'S REMAINS BURIED. Final Chapter in the Colonnade Hotel Suicide Case Closed at Columbus, Ind.

Columbus, Ind., May 25.-The body of May D. Hill, the Colonnade hotel, New York, suicide, arrived here Saturday and was identified by the father and other relatives. The body was buried in the family lot. The diamonds she was known to possess were not found in her trunk. The family here believe she was murdered and robbed. The husband had requested that her body be cremated, but, standing by the casket, Col. Keith, the dead woman's father, declared: "I'll kill the man who attempts to cremate my daughter's body or disturb it after burial." Judge Hill and wife of Indianapolis, parents of the dead woman's husband, attended the funeral.

CZAR'S CORONATION.

Consecration of the Imperial Standard in the Armory in the Kremlin. Moscow, May 25.—In the armory in

the Kremlin at 3:30 yesterday afternoon took place the interesting ceremony of the consecration of the imperial standard. This standard will be a feature of the coronation to-morrow, when the emperor will swear allegiance to the colors in the Cathedral of the Assumption. At one end of the room was a sort of altar, on which was a golden vessel filled with with consecrated water. In the center was a golden cross, at either side of which were lighted candles. The standard, hanging from a staff, was held by a color-bearer, who stood at the left of the altar. The bishops and priests of the Kremlin cathedrals, in gorgeous chasuables of gold cloth, attended by acolytes bearing censers, stood in front of the altar, while at the right was the imperial male choir from St. Petersburg, dressed in black, with crimson cloaks. Behind the priests, at a little distance from them, was the emperor and all the members of the imperial family present in Moscow with their respective suites and ladies of honor. A short religious service was held, composed of prayers and responses and an anthem by the choir. The standard was sprinkled with holy water and formally consecrated by the metropolitan of Moscow.

At the end of the service, during the singing of the choir, all of the members of the imperial family filed before the altar and kissed the cross and the hands of the priest who bore it, after which the standard was taken from this room to another apartment to be safely guarded until the coronation to-morrow. After the ser vice the emperor and empress drove back to the Alexandrina palace, escorted by a squadron of cuirassiers. They received along the entire route the loyal acclamations of the people. A grand review of all the regiments was to take place here at noon, yesterday, but, as it was raining heavily, it was decided to abandon it. Later the rain ceased and the sun shone brightly. Large crowds of people continue to arrive daily, adding to the great multitude already here to witness the ceremonies attending the coronation.

Kissed the Cross and Priest's Hands.

Victoria's Birthday Honored. Services were held in the English church yesterday in honor of the seventy-seventh anniversary of the birth of Queen Victoria. The Duke and Duchess of Connaught, the former who is here as the representative of his mother, the British queen, attended the services, accompanied by their suites. The Bishop of Peterborough, who will attend the coronation as the representative of the Established Church of England, preached the sermon. A prayer was offered for the preservation of the Russian imperial family. When the ezar was mentioned a herald uttered his majesty's corona tion titles.

SERMONS AND ADDRESSES. Three Largely Attended Baptist Meetings

at Asbury Park Yesterday.

Asbury Park, N. J., May 25 .- There were three Baptist meetings here yes terday, and each was largely attended. In the morning the Rev. W. H. P. In the afternoon the American Baptist Missionary union met in the Auditoria um and were addressed by the Rev. George Bullen, D. D., of Massachusetts. In the evening the American Baptist Home Mission society conducted services in the Ocean Grove Auditorium. The sermon was preached by the E. J. Johnson, D. D., of Pennsylvania.

SOLD UNDER FORECLOSURE. Erastus Wimau Purchases the Property of the Staten Island Electric Power Co.

New York, May 25.-Erastus Wiman, in the name of his son, Henry Dun Wiman, has purchased at foreclosure sale the property of the Electric Power company of Staten Island for \$110,000. The company originally absorbed from Mr. Wiman \$400,000, and, according to the report of the receiver, has continuously for the past three years earned full interest on that amount. Against the property there are liabilities of less than \$200, 000, mostly to Boston banks, who through their attorney are co-oper ating with Mr. Wiman in a reorganiza tion of the company, in the expectation

that their claims will be paid in full. British Behring Sea Naturalists,

HE PLEAD FOR PEACE

Moderater Withrow's Caused a Sensation.

NEW ERA IN PRESBYTERIAN QUARREL

Controversies of the Past Five Years Harmful and a Hindrance to the Preaching of the Gospel, He Declared.

Saratoga, N. Y., May 25,-Moderator Withrow's sermon yesterday created a positive sensation among the commissioners. Moderators' sermons in the past years, especially since the Briggs trouble, have been characterized by earnest and eloquent appeals to the commissioners to stand up in defense of the truth of the Scriptures and the standards at any cost. These sermons have come from staunch conservatives. Now it is the liberals who are smiling. Moderator Withrow's sermon was characterized as a veritable plea for peace and work, which, following upon the conciliatory sermon of Moderator Booth, seems to mark a new era in the Presbyterian quarrel. One ministerial commissioner said, in speaking of yesterday's sermon: "Dr. Withrow gave the committees to the conservatives and taffy to the liberals." Another minister said: "Such a presentation of the character and work of Jesus Christ as made by the moderator yesterday is unworthy of a Presbyterian pulpit." Dr. Withrow preached upon the subject of love being stronger than violence in the advancement of Christ's kingdom. He made a strong plea for peace in the

Controversies Harmful,

In his introduction he compared the spirit of violence and the spirit of love as exemplified in the ministry of Christ. He said that Christ might, if he chose, have cast Caesar from his capital and have thrown Herod off his throne and have introduced a new regime of righteousness. But he did not. No weakling was ever less disposed to strike a strong man than Jesus was to join a struggle with ruling powers and prevailing wrongs. Only one exhibition of irretistible energy is recalled, as when he used only a little switch of small cords to cleanse the temple, when he might have swept it with a cyclone of indignation which would not have left a single trader alive. He said that the bitter controversies during the first three centuries had done much to hinder the spread of Christianity, and that the controversies of the last five years, during which the church has been striving to defend the word of God from the attacks of the higher critics, had been harmful and had hindered the preaching of the gospel.

Reason for a Big Deficit.

He called to mind the fact that at the time of the reunion of the old school and the new school branches the assembly asked the church to raise a memorial fund of \$5,000,000. The church responded by raising nearly \$7,000,000. Last year the assembly asked for \$1,000,000 to commemorate the twenty-fifth anniversary of this reunion. The subscriptions do not amount to one-half of the sum asked. The preacher said that the reason for this deficit was known to all. He attributed it to the position which the church had taken against those who had attacked its standards. He said that the spirit of the church should not be that of the "Lion of the tribe of Judah," but that of the "Lamb of God." He said that zoologists believed that in 100 years the lion tribe would be extinct. He thought that the world would get along well enough without lions, and that the church would get along without the men who had the lion's spirit. "There may have been some reason for them once, but as Judah's lion was to Calvary's Lamb so is the world in want of those whose loving heart and not their awful head and eye and determination to rule everybody will mostly characterize them, especially in the church of

Grizzled Old Fighter. It were not wonderful if a grizzled old fighter, hearing what has been

said of love being better for the world than bickering, backbitings and beating one another, should grind his teeth and grumble: "Oh, fudge! That is only dayllabub and calf meat. Give us the strong meat on which our fathers fought and died." But if we must have a diet for making violent men, why not go back to the bestial age in which mothers fed their babes on tigers' milk as a means of making terrible men. The speaker closed by saying: "We cannot shake men out of wrong ways whether they are outside our membership or within both membership and ministry, can

ORIGIN OF BLUE GRASS.

Not Originally a Kentucky Product, for It Came from Indiana.

"I notice by the papers that somebody in the south part of the state wanto to know where blue grass first started." said Prof. John Collett, ex-state geolo-

"A great many people contend that it was first found in Kentucky, but this is not so. Blue grass is a native of the Wabash valley in Indiana. It was found by William Henry Harrison's troops during the solemn march to Tippecanoe in 1811. Harrison gathered a small army at Ohio Falls and started At Vincennes the gallant heroes realized that they could not go 200 miles up the Wabash without feed for their horses. Gen. Harrison had two cribs of corn at Terre Haute and persuaded the men to go on. As they came on with hungry horses and scant feed they found the ground covered with blue grass. Six miles west of Newport on the Collett farm was found a bountiful supply of blue grass. Some places in the bottom it was growing three feet high and such feed had never been heard of by the Kentucky soldiers. At State Line City more blue grass was found and from there to Tippecanoe the whole line of march was covered with blue grass. The seed was carried back te Kentucky and sown there, but they could not make it thrive alone in the warm soil and it had to be sown with oats and rye. Mr. Sandusky, the father of the present family of that name, told me in an early day that no blue grass grew in Kentucky until after it was imported from Indiana. Tom Downing, of Terre Haute, was an ardent admirer of Henry Clay, and once went to visit him at his home near Ashland, Ký. After seeing the fine farm, well set in blue grass, Downing suggested that Mr. Glay let him have some of the seed to take back to Indiana.

"'Tom, don't make a fool of your self,' said Clay, 'the grandsire of Kentucky blue graes is growing around your house in the fence corners of your fields. We got the seed from Terre Haute and the middle Wabash, and after a hard struggle got it to grow here in its present luxuriousness."-Indianapolis Journal.

Hall Storms in the Orange Free State. One of these republics—the Orange Free State—is very nearly as large as England, and just as large as the state of New York. It lies from 4,000 to 5,000 feet above the sea, and is mostly level, with some low ranges of hills. The surface is bare of wood, except in a few sheltered spots along the streams, but is well covered with herbage. The air is pure and bracing, much like that of Colorado or Wyoming. There are, happily, no blizzards; but violent thunder storms are not uncommon, and the harlstones-I have seen them bigger than pigeon's eggs-which fall during such storms sometimes kill the smaller animals and even men.—Prof. James Bryce, M. P., in Century.

Some Schoolboy Definitions. In a recent examination some boys

were asked to define certain words, and to give a sentence illustrating the meaning. Here are a few: Frantic is wild. I picked some frantic flowers Athletic, strong; the vinegar was too athletic to use. Tandem, one behind another; the boys sit tandem at school. And then some single words are funnily explained. Dust is mud with the wet squeezed out; fins are fishes' wings; stars are the moon's eggs; excumference is the distance around the middle of the outside. - Educational Ga-

HOUSECLEANING TACTIOS. dow to Meet the Annual Trial with Com-

While the systematic housekeeper is renovating the sleeping-rooms, she should dispose of the winter garments. Furs, wraps and gowns which are not to be worn until next fall should first

be thoroughly cleaned and then carefully packed. To pack away any article of attire without first making it fresh is a crime which should bar the person committing it from the society of good housewives.

Furs may be satisfactorily renovated at home. Short-haired skins, such as seal and ermine, should be rubbed against the grain with soft flannel until all the hair is reversed. Spots should then be rubbed lightly with flour and the flour finally removed by vigorous shaking. Long-haired furs may be cleaned by scouring them with hot bran. After this has been done roll the garments in paper, tie up in linen cases with pepper and camphor bags, and consign them to chests.

The spring house-cleaning period is not only the time when winter clothes should be laid away, but it is also the accepted season for plumbing. The services of the plumber are likely to be more necessary than those of any other person in the spring renovation of the bathroom. A beautifully enameled tub is a small compensation for sewer gas. Consequently before any mere superficial details are attended to an expert opinion concerning such homely things as drains and pipes should be ob-

The bathtub will be less trouble to keep clean if it is painted with enamel paint. This may be purchased already mixed, and the least skillful woman will be able to apply it satisfactorily. The tub should, of course, be perfectly dry until after the last coat of paint has been applied. The wall of the bathroom back of the tub and washbowl, if they are not tiled or marble, should be "papered" with linoleum in tile patterns. This will permit unlim-ited spashing of water without damage. The floor may be well covered with this material.

If the bathroom has not been equipped with wire soap and sponge trays, shelves for bottles, hooks for clothes, racks for towls, and the like, there is no time like the days of the spring house-cleaning in which to repair the omission.

Before descending to the lower part of the house, the mistress should discover if her mattresses need renovating. If she uses feather ones she should destroy them, for in the opinion of physicians they are positively pestiferous. Hair mattresses, if they are hard and dirty, may be freshened by ripping the ticking, removing the hair, washing the ticking, picking the hair and putting it in a dry, airy place for several days. When the ticking is dry it should be filled lightly with the hair and tacked together again.

If painting is done in the bedrooms, pails of fresh water should stand about uncovered. This will prevent attacks of painters' colic.—N. Y. Journal.

CONQUERING A BRONCO.

How It Can Be Done, According to Veraclous Citizens.

It is related of a prominent citizen of Arizona that he once met a prominent citizen of Montana on the neutral ground of Colorado. The subject of bucking horses coming up, the prominent citizen of Arizona said:

"We have some very skillful riders down in my country. This, of course, shows out particularly when they are breaking wild broncoes to ride. When an infuriated mustang, saddled for the first time, and rearing and bucking with all the terrific energy of his savage nature, looks up out of the tail of his eye and watches his rider calmly roll and light a cigarette, it has an excellent effect on him, and usually he cools down, realizing the hopelessness of his task."

Then spoke the prominent citizen of Montana:

"That will do very well, I dare say, for the comparatively mild and inoffensive horses of your southern latitude, but it has been found to have no influence whatever on our flerce and vicious beasts. But when one of our cowboys mounts a bronco for the first time tt helps greatly to subdue the creature when, after he has leaped and pitched for 15 minutes, he happens to glance back and finds his rider quietly shaving, holding a small mirror in one hand and the razor in the other, with the mug, hot water and bay rum in a little basket on his arm. Ah, it's all in knowing how, this subjugating a Montana bronco!"

Then the meeting of prominent citizens adjourned.-Harrer's W gazine. During the Quarter

There is comfort in the knowledge, that so many forms of instrument, give char cteristic persickness are not due to any actual disease, but sumply to a constipated condiease, but simply to a constitute decondi-tion of the system, which the pleasant family laxative, Syrap of Figs. prompt-ly removes. That is why it is the only remedy with millions of families, and is ever, where esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important in order to get its beneficial concess, to note when you purchase, that you have the genuine arti-cle, which is manufactured by the Cali-forma Fig Syrup Co only and sold by character, when also fity trained all reputable deuggists

If in the enjoyment of good health, and the system is regular, lazatives or other remedies are then not needed. Valuable Lessons and U-eful Informs. tion in the Barnum & Balley whom.

It is just possible that no books in the world will convey one hundredth as much actual information about the curious animals inhabiting this earth as an hour spent in viewlog them in the Barnum & Bailey greatest show on earth, when it comes here on Thursday, May 28th. Here, too, may be seen the elegant enter tainment, Oriental India, with the natives of that far eastern country, illustrating their home life and occu pations. There people, together with their curious buts and tents, odd weapons of war and the chase, crude agricultural implements and ancient tools, queer and outlandish costumes -some almost nude-qualist musical formances, dances, games, and sports that tell ek quantly the domestic his tory of the country. Is the same tent may be seen also Johanna, the remarkable female gorilla, and the big, blue nosed mandril', the only one in captivity. These are the only animals of their kind at present in captivity in the world. Besides these again there is a most amazing exhibition of trained animals, where nearly all kicus go through a series horses perform at one time in one ring, and execute all singly, in groups, and in whole companies remurkable feats. Equestrian tournaments, leaping and tumpling coctests, aerial, trap. za, ground, aerebatic, gymnastic and athletic feats follow each other in such rapid succession that the eye can scarce keep them within range. A veritable Midway will be found in the double menagerie tent, where there are hiry cages of the rerest and costle t specimena of wild beasts from all over the world, and where twentyfour elephants and a flock of ostriches prove two of the greatest sights on earth. The new free street parade also is a wonderful affair, in which the military uniforms of the present rulers of the world are shown as well as the new horotless ca:-

F. NORTH SON. OTT EDITOR 34 PRINCHIPAR MAN GEG.

MONDAY/MAY 25 1896.

The St. Louis Republic has exclusive information that "ex-Congressman Thomas W. Bradley. of Newburgh," is a candidate for Vice President on the McKinley ticket and that "the McKinley men will push him in the National Convention if Warner Miller is barred out as the New York candidate for the place."

The Buffalo Commercial, anti-Platt Republican, ridicules the State Committee's approval of the work of the Legislature. It says that no one on earth cares for the State Committee's endorsement, for it amounts to nothing, for the people have no confidence in the committee. Continuing, the Commercial says; "It is only another illustration of a condition of things which makes the amused people say, 'What power divine shall henceforth wash the river Rhine?"" This would ENGINEER HOPPER'S SINGULAR EXindicate that, having vouched for the late Legislature, the State Committee stands in need of somebody to vouch for it.

The Spanish ministry seems to devote much of its time to calling down the too aggressive Weyler. In consequence of the protest of the American minister against the injustice done American citiz-ne by the decree prohibiting the export of tobacco. the Cabinet cabled to Havana, yesterday, directing Weyler to so modify his edict as to permit all contracts made with American citizens to be carried out. The administration makes no fuss with its foreign policy, but it is watchful, prompt and effective, and American interests and American honor are protected every

Just before he sailed for Europe Andrew Carnegie said to a reporter for the Iron Age: "All other issues must be subordinated to that of honest money; nothing can be set tled till this shall have been settled, and no general prosperity will be possible without it. I agree with George B. Roberts, President of the Pennsylvania Railroad, who is a typical man of affairs of this country, and, indeed, of the world, since he is | E Tompkin's Billy R, took both halfat the head of the largest organization, and giv-semployment to more labor than any other man. I agree with him when he says that the tariff can wait."

The anti-Platt Republicans are fast maturing their plans for setting up a machine-in this State in opposition to the one of which Mr. Platt has charge. They propose to fight the old organization in every election district in the State outside of New York county, where, with a cynicsism born of experience, they say it will be cheaper to buy up the present machine than to attempt to create a new one. They have already parcelled out all the elective and appointive offices and the slate includes Saxton for Governor, Pavey for Lieutenant-Governor, and Warner Miller for United States Serator. It is generally believed by Platt's friends that Miller's candidacy for the Senate would be sufficient to induce Platt to enter the field against him, and in that event the fight would be so extra hard that it is certain the easy limits of possibility that Platt and anti-Platt candidates would be run in many districts, and if this should happen even the gerrymander of the constitutional convention would not save the Legislature to the Republicans, and the re election of Senator Hill would be aseured.

Thomas C. Platt, who seems to devote part of every Sunday to preparing attacks on McKinley, has his usual weekly interview in this morning's papers. It lacks, however, the ring of confidence and aggressiveness that characterized his previous atterances, and though he reiterates his statement that he is opposed to Mc-Kinley because he regards him as unsound upon the currency question, he pours out his venom not on Mc-Kinley, but on McKinley's friends in this State who, he says, are for Mc Kinley, not because they care a fig for de X nley, but because they can 'u > is name and position to air tue r conspiracy for the overthrow of the Republican organization." Incidentally Mr. Peatt says that no matter who is nominated, the regu lar Republican organization will make the stoutest fight it ever made for the Republican ticket; a declaration which weakens very materially his boast that he and his friends are fighting for a principle important to the people. A principle that can be surrendered as readily as Mr. Platt seems ready to surrender his sound money principle, may be very "impertant to the people;" but it cer

tainly is not very important to the politician who is so ready to fall in Mie benind a candidate who most conspicuously fails to represent that principle.

Laid Down for a Nap and Found In sensible and Bleeding Shortly Afterwards.

At noon, to day, Engineer Hopper, of the yard engine, went into the car inspector's office in the upper end of the yard to eat hieluuch as usual and after he had finished laid down upon a bench to take a nap Shortly before 1 o'clock, Yardmaster Shaw found Mr. Ropper lying on the floor intensible and bleeding from several lying on the opposite side of the room and his warch and chain, which had been in his shirt pocket under his blouse, more than two feet away.

Mr. Hopper was finally aroused but appeared to be dazed for some time, and could not remember anying after lying down on the beach.

This was Erie pay day and the supposition is that some one finding Mr. Hopper asleep, had knocked him senseless and attempted to rob him, but had been frightened away before accomplishing his purpose

MAY TERM OF COUNTY COURT.

Only Four Civil Cases to be Tried-Prisoners Arraigned

County Court opened at Goshen this morning, with County Judge Beattle on the bench. The call of the calendar showed only four cases as follows:

Van Inwegen vs. Van Inwegen Thursday; Depew vs. Beakes, as sheriff, and Gallow vs. Gazley, Wednesday; Terry vs. Headley. Tuesday. After hearing argument on an application to release George L Marble of Port Jervis, from bonds for the support of his wife and three children, the judge reserved his

decision. The prisoners in cu-tody were then arraigued.

Charles A. Vail, a resident of Middietown, charged with rape, committed at Vall's Gate, had made an arrangement for the care of his offwounds about his face. His hat was spring, and was discharged on his own recognizance.

Marino Comine, indicted for receiving stolen goods, pleaded rot guilty, through his attorney, George H. Decker, of Middletcwn.

Henry A. J. Leard, charged with burglary, third degree, grand laicony, second degree, and receiving etolen goods, entered a plea of not guilty.

James Radney, of Montgomery, a colored youth, charged with stealing a set of harness in 1893, pleaded not guilty to petit larceny, and sentence was suspended,

The rest of the term will be taken up with civil business.

CHUSHED UNDER CHUEL CAR WHEELS

Easincer W. H. Perlee's Shocking Beath in the 0, and w. Yard-Pell on the Ralls White Attempting to Board a moving Car-His Body Terribly Man-

William H. Perlee, a well known and popular engineer on the Ontario and Western Railroad, was run over and instantly killed about 5 o'clock, last evening, in the O. and W. yard, near the Montgomery street crossing.

The switch engine had been drilling in the yard and was going north at the time of the accident. The train was made up of one box car, ahead of the engine, and ten cars behind it. According to the story of crossing flagman Jansen, Mr. Perlee was walking on the track with his bach toward the approaching train. Mr. Janeec called to him and warned him of his danger.

As the train approached him, Mr. Periee turned and made an effort to board the box car, by means of the ladder on the end of the car. He must have missed his hold, or footing, for he fell under the car. The flagman shouted to Engineer Charles Tierney, who brought the train to a standstill at once.

The body was discovered under the trucks of the tank, the box car and engine passing over it. It was necessary to use jacks in order to release the remains. It was found that nearly every bone in the upper part of the body was broken and the flesh was badly torn from the face and

Coroner Dacker was notified by telephone, and he arrived at the scene before the body had been exremoval to undertakers Knapp & empannelled and an inquest will be held at 7.30 o'clock this evening.

Yard Conductor William D. Van-Keuren who was in charge of the switching, had noticed Mr. Perlee on the tracks a few minutes before and back down upon the track upon which he was standing,

Mr. Perlee was to have gone out on the milk train at 6:40 and it is supposed that he was on his way to the Wickham avenue station, when he was killed.

Mr. Periee had been employed as the past twenty years, and bore an excellent reputation with the officials, as a careful, sober and industrious engineer. He was known among his fellow employes as a very careful man about a train, and one who never attempted to jump on or off while it was in motion. His action in the present instance is therefore unaccountable.

Mr. Perlee was twice married. His first wife died several years ago, and two years ago he was married to the widow of Mr. George Younglove, who was killed in a wreck on the New England road about four years ago. He is survived by his widow and an infant child, and two step children.

Several years ago Mr. Perlee became a partner with Mr. George E. Hill, in the City Pnarmacy, at the corner of North and Cortland streets, and at Mr. Hill's death continued the business, which has been in charge of Mr. Thomas G. Coyne.

Mr. Perlee was a prominent member of the Brotherhood of Locomotive Engineers and Lancelot Lodge, Knights of Pythias.

Deceased was a son of Henry Perlee and was born in Schenectady, in July 1848, and was therefore fortyeight years of age. The funeral notice appears elsewhere in this paper.

A Young Man's Leg Stoken.

Charles Ketcham, aged twenty, son of Mr. Alfred Ketcham, of Otleville, was driving a team of horses, this morning, for his grandfather, Mr. Charles Mapes, at Mapledale, when the neck yoke broke and the pole fell to the ground. The horses ran away, and Mr. Ketcham jumped out. The wagon was overturned. and fell upon his right leg, breaking it above the ankle. Dr. Douglas, of this city, reduced the fracture.

Run Down by a Brooklyn Troller Car.

Jesse Towner, formerly of this city, now of Brooklyn, was run down by a trolley car on Myrtle avenue in that city, Saturday. He had an ankle broken and was cut about the head, but strange to say escaped more serious injury. Mr. Towner was but recently discharged from a hospital, where he submitted to a successful operation for the removal of a cataract.

A Creamery Man Makes Au Assignment The bad news reached Circleville, Saturday, that Ed. Seaman, proprietor of the creamery at the station in that village, had made an assignment. He owes for milk since April ist and armers in the vicinity are his creditors to the amount of \$2,500. He also owes about \$2,500 to farmers in the vicinity of Neelytown.

· Lays of Ancient Midway. Yesterday was a Raines law Sunday at Midway Park. Sandwiches and beer, - principally beer, were served to all ""uests" and when evening came some men had been 'guesta'' so often that they were very b. erv.

Most of them carried their jags quietly and showed proper respect for the little of Sunday that Mr. Raines' law has left for any us to respect. Not so, however, George Grady, a blacksmith employed in the Traction Company's repair shop. He came here from Scranton where it seems he attended enough "shows" to fit him in his own estimation at least to set up as a sort of critic. He thought the sacred concert given by Hannigan's Troubadours "dead alow" and began to make contemptuous remarks in a loud voice.

Park Policeman Ballentine ordered Grady to keep quiet under penalty of being "thrown out." Grady become more noisy than before and was placed under arrest and was taken to the railroad station. There it was discovered that Grady had lost tricated. He issued orders for its his hat in the commotion lecident to his arrest. He asked to be allowed Merritt's establishment. A jury was to return and get it and the officer consented. As soon as they were back in the crowd Grady broke away from the officer. Deputy Sheriff Coleman, who is in charge of the boats, tried to assist Officer Ballantine in re-arresting Grady and as a conhad warsed him that the train would sequence of his zeal is carrying his head in a sling, to-day, for he got his head between Ballantine's club and Grady and several smart blows intended for Grady landed on his

cranium. Grady was finally subdued and led sway by Officer Ballantine, who, for some reason not apparent to the unan engineer on the O. & W. road for enlightened mind, took his prisoner to the restaurant. A growd of several hundred persons followed. Quno Musbach tried to prevent their entrace, but Ballantine, his prisoner and his merry men, heeded him not. Cuno was, however, squal to the emergency. A whispered word to his faithful servitor was all sufficient and in an instant "Neil" had the fire hose trained on the crowd and was deluging them with water. In just three and a quarter seconds, Ballantine, his prisoner and the crowd had

disappeared. Grady was brought to this city and paroled until to-day.

The indignant owners of ruined epring suits have been making Superintendent Urban's life miserable, today, by inquiries as to who is to pay for their clothes.

Stricter police arrangements will be made at Midway and the recurrence of such an affair will be made impossible. The construction of a lockup, in the the rear of the restaurant, will be begun at once.

WHITSUNDAY AT GRACE CHURCH-Reunion of the Five Confirmation

Classes of the Cresent Rectorship. The great Whitsun festival was observed with two celebrations of the bely communion at Grace Church ar 7:30 and 11 a. m. The next two heats were won by Casterlin in 561/4 and 59. The judges were William Osborne, of Iowa; E. F. Foote, Goshen, and a Mr. Ryerson, of New Milford. Between 200 and 300 speciators were in attendance.

-Mr. and Mrs. Dean Tuthill, of Zanesville, Ohlo, are visiting at the residence of Mr. Tuthili's mother, on Main street.

-Rev. Mr. Leadbeater, of Florida, conducted the services at the Presbyterian Church, last night, in the absence of Rev. R. B. Clark, who was preaching at Warwick.

-Miss Carrie B. Kniffin, who has eeen teaching school in Dutchess county, is visiting her parents for a

-Atforclosure sale at the Court House, Saturday morning, the Fullerton property, located in the rear of "Interpines," brought \$1,601. It was bid in by an attorney for one of the defendants in the action.

-The members of F. M. Cummins Post, G. A. R., and Maj. Murray Camp, S, of V., attended services at St. James Church in a body, last night, and listened to an eloquent sermon by Rector Betts.

-A very much battered up personage was John O'Connor, from out of town, who appeared before Justice Swezey in Police Court, yesterday morning. Both of his eyes were deeply draped in mourning and a vidently been "hrough the mill." He said he had started out with \$13 and had but twelve cents left. The Justice considered him sufficiently punished and let him go.

-A match game of base bail was played in Seward's los, Saturday morning, between the Young Stare and the South Streets. It resulted in a victory for the former team by a score of 14 to 10.

-The wheelmen have commenced their long distance riding. Yesterday, Frank Hock and Henry Miller rode a tandem to Suffern; Harry Ackley and Fred Seward also rode to Suffern: a party composed of the Hon. Louis Bedell, W. H. Goodale and John Hapsen went by rail to Turners and thence by wheel to Suf-

fern. They all returned together. -When Jerry Carey, who was sentenced Friday, saw the way the stone cracking at the jail was conducted, he concluded that he was no stone cracker and that such work was out of his line. A'ter "Uncle" Benj. Hull had pleaded with him in vain he was stored away in the dark cell Solitary confinement was not to the liking of Jeremiab. He promptly capitulated, and is now one of the most industrious workers.

-Four of the dark maroon stars of Brown's Extravaganza Company are said to have become fascinated with Goshen as a place of residence and to have let the show go on without them. Worse and worse!

-The Red Men will meet at Merritt's restaurant, to-night at 8:30 o'clock, to make arrangements for the funeral of the late Daniel Penny.

BRAYE LAURA ALBERTA.

A New York Actress Who Has Done Much for Cuba.

Her Cozy Home Has Been a Safe Refuge for Exiled Patriots-She Will Now Go to the Front in the Capacity of a Nurse.

The struggle of Cuba has brought to light examples of courage and devotion to the cause on the part of women whose deeds of bravery and self-sacrifice will be recorded in history and song in years to come.

When the war was inaugurated and money was needed to defray the expenses of putting Gen. Gomez and his leaders on the fated isle, the wife of one of the patriots, now in Washington, was the first to say: "Let me furnish the money!" And she did, out of the remnants of a fortune once owned in

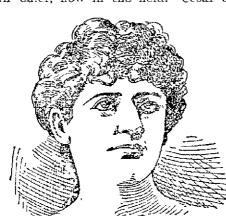

When ammunition was needed to make possible the revolt last June in the province of Camaguey, a woman. Caridad Aguerro, now exiled and in the city of New York, was the first to volunteer her services in the dangerous mission. Trip after trip she made from Havana to the inland city of Puerto Principe, carrying thousands of rounds of ammunition in the bottom of her trunk. In time suspicion became attached to her and she was compelled to flee for her life.

New York to-day holds more than one fair patriot who is devoting all her energies and is willing to risk her life in the struggle, and they are not all

One of the most trusted workers in the cause, says the New York Herald. is an American, Laura Alberta. She was the original Dearest in "Little Lord Fauntleroy.

The reading of a Cuban play last summer brought her in contact with many leaders in New York city, and from them she imbibed an intense interest in the Cuban cause, which culminated in her offering her services in any capacity. Her parlors were thrown open to the Cuban leaders, where, in quiet and security, they could discuss important moves. Tokay and chocolate were always served.

Here was entertained Francisco Gomez, son of the Cuban commander in chief, now in the field. Cesar de

LAURA ALBERTA.

Salas, one of the original four who. with Gemez and Marti, landed a year ago on the Cuban coast, sought the seclusion of her apartments to tall: over plans for the now famous winter raid into the "Occident." Lieut. Alfredo Sanchez Agramonte, another staff offieer of Gomez's command, who nearly lost his life in bringing from Cuba the credentials which made Thomas Estrada Paima minister plenipotentiary of the new republic, in Miss Alberta's house first heard the glad tidings of the safety of his wife and child, after the wholesale arrests in Puerto Principe.

In her rooms many of the insurgent leaders met and conversed with veteran blockade runners, whose services have since been so useful in landing of expeditions carrying men, aims and ammu-

On the large oak center table, beneath a huge Japanese canopy, charts of the Bahamas and the West Indies were unrolled, and over them some of the eleverest navigators of the southern seas, English as well as Yankee, have laid courses and, with the Cubans, planned filibustering enterprises.

Miss Alberta is the only woman in the world who has enjoyed the privilege of being present at these secret gatherings. That the confidence in her was not misplaced is best evinced by the fact that from the early landing of Roloff and Sanchez to the present time to expedition once away from American ports has been caught by the Spanish cruisers and gumbouts.

Detectives and spies have of late grown very persistent. Some, who on one pretext or another, sought to gain entrance into the now well-know i apartments, met at Miss Alberta's hands a kind of welcome they will not forget. For obvious reasons the quiet little parlors in Thirty-ninth street are to be abandoned, and the fair patriot who once presided will soon leave for the

Dr. Enrique Agramonte, a colonel in the last Cuban revolution and brother to Gen. Ignacio Agramonte, who was killed, has accepted Miss Alberta's services, and will in a short time take her to Cuba as a Red Cross nurse.

In speaking of her Col. Agramonte said: "All Cubans who know Miss Alberta hold her in the highest possible esteem. If her earnestness and devotion to the cause of universal freedom could be shared by the rest of her sex Cuba would in a short time gain her independence, for the other sex would be compelled to fall in line or be socially ostracized.

"Since she is determined to brave the dangers of battle and a tropical climate. I am very proud to have such a true and unselfish woman as a niember of my corps of Red Cross nurses."

low spirits, follow the derangements, irregularities and weaknesses peculiar to the sex. All women require a tonic and nervine at some period of their lives. Whether suffering from nervousness, dizziness, faint-ness, displacement of womanly organs, catarriad inflammation of the lining mem-branes, bearing-down sensations, or general debility, Dr. Pierce's Pavorite Prescription reaches the origin of the trouble and correaches the origin of the trouble and corrects it. It's a medicine which was discovered and used by an eminent physician for many years in all cases of "female complaint," and those painful disorders that afflict womankind. If women are over-worked, run-down tired or sleepless, if they are irritable, morbid and suffer from back-ache, they should turn to the right means for a permanent curre. Dr. Pierce's Favorite Prescription fits just such cases, Favorite Prescription fits just such cases for it regulates and strengthens the special functions, builds up and invigorates the entire female system.

How o Take Care of China and Silver

Belongings. Ambitious young housewives often "set up housekeeping" with the idea that the delicate china and dainty appointments for the dining-table are quite a matter of course and do not require any special care. Perhaps in their mother's home the china and silverware always appeared in the same immaculate condition without any apparent exertion on the part of the housekeeper, and it is taken for granted that the same state of affairs will exist in the new home. But how soon are the eyes opened, especially if the beautiful wedding gifts and the treasured belongings that have accumulated during the interesting shopping tours are intrusted to the servant. Aside from the actual destruction of many treasured dishes, the "newness" of the remaining articles will be sadly ephemeral. But if the housewife early acquires the habit of overseeing the care of the fine table appointments their beauty may be made permanent to a great extent.

If there is a sideboard in the diningroom it will supply the necessary compartments for napery and cutlery; otherwise it is convenient to have a set of drawers arranged beneath or at one side of a shelf in the china closet. These may be easily hung by means of cleats and grooves. All plates of a certain kind should be piled together, or those who still hold the opinions of our mothers, that they should not be stacked, should have slats arranged that they may stand on their edges. The cups and saucers may be grouped in any way you may fancy for convenience and a pretty effect. It will be convenient to have a shelf arranged in steps for glasses. This not only produces a good effect, but renders easy the selection of a required size or style, does not disturb the others and there is less likelihood of breakage.

Some people think that in order to preserve handsome china without being nicked it is necessary to use "keelers" in which to wash it, but unless great care is exercised these soon become foul, and with careful handling two dishpans do quite as well. First fill the pan with hot but not boiling water, in which a little soap has been dissolved. Wash the glasses in this and rinse them in the other pan, which contains clean hot water. Then lay them on a drainer of perforated tin that fits into a pan to eatch the water. Wipe them qu'ckly with a cloth that is not linty. It is scarcely necessary to add here that every housekeeper is supposed to have a convenient receptacle for dish towels, glass napkins, polishing powder, etc. As soon as the glasses are wiped, wash and dry the silver, polishing whatever should require it. While attending to the silver the cups, saucers and dessert dishes may be soulting in the water, and as they are taken out and rinsed the plates and vegetable dishes should be washed and rinsed, leaving the meat platters and all greasy dishes until the last. All grease and particles of food should be carefully scraped from the dishes before putting them in the dishpan. A wooden scraper should be used for this, as fine decorations are often scratched and injured even on the china that has been perfectly "fired." Do not put many dishes in the pan at once, as there is danger of chipping the edges. If the knives and forks have pearl or bone handles, or ly the blades should be wet. The silver powder should be applied with a damp cloth or silver brush, and the articles polished with chamois skin. If there is any engraving or repousse work on the silver a soft dry brush should be used to remove all the white dust, leaving every tiny crevice bright and shining and free from the objectionable accumulation of dirt and powder.—Philadelphia Times.

SOMETHING NEW.

How Some People Follow Every New Fad.

But the Majority Prefer That Experiments Should Be Tried Upon Somebody Else-

Some persons are always so anxious for something new that it is astonishing they still continue to eat plain bread and butter. They have always thrived well on beef, eggs, and potatoes; but somebody writes an article for a scientific journal, and attempts to show that these foods are neither as cheap nor as nutritious as some other kind of food. Therefore, some persons drop this standard diet and take up whatever some young scientist directs. We cannot understand this. When anything has been thoroughly tried and tested, and found in every way satistactory, why do some people persist in running after some new-fangled notion? Take cod-liver oil for instance. It has been used for two hundred years with most marvellous success, and in a large variety of complaints. Its success has been no greater in the past than it is to-day. More skillful methods of preparing it, and emulsifying it (for it is generally acknowledged that it should always be given in the form of an emulsion), gives assurance that its future use is bound to be even far greater than And yet some people talk about a

"substitute for cod-liver oil"! Substitute? Why, it is almost laughable. It certainly would be so, were the question not such a serious one. There can be no substitute for codliver oil, for there is nothing at all like it known to medical science. When Scott's Emuision of Cod-liver Oil with the Hypophosphites has been used for over twenty years, and when thousands have testified to its curative properties, is it not strange that any one would think of trying an experiment with some new preparation of cod-liver oil? When you know you are safe in taking Scott's Emulsion, is it not too risky business to try something new? Do you think Scott's Emulsion could have stood these twenty years, and have a larger sale to-day than ever before, unless it had true, genuine merit. Where do you suppose these substitutes, which do not contain a particle of oil, will be twenty years from now? And where will all the fancy preparations, as the various wines of cod-liver oil, be at that time? It is perfectly safe to predict that before they are half as old as Scott's Emulsion is, they will be forgotten. Do not allow yourselves to be experimented upon; be satisfied with the best; and take advantage of twenty years of ever in-

creasing prosperity. Scott's Emulsion contains more pure Norwegian Cod-liver Oil than any other emulsion in the world, that will stand the test of time as being a perfect inseparable emulsion. Ask your doctor

Benediction. Reform and march to Franklin Square for dismissal.

Reassemble at 130 p. m. in Franklin Square, and take the trolley cars for Phillipsburgh cemetery, where the ritual service of the G. A. R. will be recited and addresses made.

All our citizens are cordially irwited to join us in the mutual honor of paying this yearly tribute of thoughtful remembrance ever the graves of those who wisely and well loved country and flag even unto

The public school teachers and the elergy, these great educational factors in the community, are especially urged to cooperate with us in a proper and decorous observance of the day.

Let all the children come and learn To love flag and country while they sing of its liberty and its glory.

The Memorial services at the cemetery will be in charge of Gen. Lyon Post, and the public exercises will be conducted by Capt. W. A. Jackson Post at the same place. Should the weather prove unfavorable, an adjournment for shelter may be neces-

The ladies of the Rallet Corps will make their headquarters at the G. A. R. Post rooms on the morning of Memorial Day, and proceed to Hillside cemetery at their conven!-

Dr. J. Russell Taber, of Brooklyn, N. Y., will deliver a memorial ser mon on Sunday evening, May 31st, at the Assembly Rooms. Both Gen Lyon and Capt. Jackson Posts of the G. A. R have accepted an invitation kindly extended them through Dr. Farcher, and will attend in a body. They will meet at their rooms at 7 o'clock that evening in uniform with white gloves.

The soldiers' graves at Hillside and at St. Joseph's cemeteries were marked with small flags, yesterday after noon, by comrades Ozden, Reed, Hurst, Wheeler, Norrie, C ist, Rice, Irwin and Dickinson. Wheeler and Reed, of the Sins of Veteraus, were also efficient workers in this patriotic

Friends of the decrased will notify the committee of any neglect in this important matter of marking a grave with a flag.

On Friday evening, May 29th, Lowers will be received a Ogden's, on West Main street, for distribution on Memorial day.

Results Tell the Story.

A vast mass of direct, unimpeach able testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually does perfectly and permanently cure diseases caused by impure blood. Its record of cures is unequalled and these cures have orten been accomplished after all other preparations had failed.

HOOD'S PILLS cure all liver illa, biliousness, jaundice, indigestion, ick headache.

· It is a great mistake to suppose stitutional cure on the market. It that a simple tonic gives strength; it only stimulates the stomach to renewed action. To impart real strength, the blood must be purified and enriched, and this can only be done by such a standard alterative as Ayer's Sarsaparilla.

It will consist of views of the Holy Land, de-coiptions of the same and sacred music

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was it supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and, by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment, Hall's Catarrh Cure, manufactured by F. J. Chency & Co., Toledo, Ohio, is the only conis taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send for circulars and testimonials. Adress.

THE BLUES.

& Graphic Description of the Dreadful Feeling.

What Is Meant by This Form of Acute Misery-Where Doctors Mako Mistakes.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a

sad picture. It is usually this way:-She has been feeling "out of sorts"

for some time; head has ached, and back alse; has slept poorly; been quite nervous, and nearly fainted once or once or twice; head dizzy, and heart has beat very

fast; then that bearing-down feeling. Her doctor says, "cheer up, you have dyspepsia; you'll be all right soon." But she doesn't get "all right." She grows worse day by day, till all at once

she realizes that a distressing female complaint is established.

Her doctor has made a mistake. She has lost faith in him; hope vanishes; then comes the brooding, morbid, melancholy, everlasting BLUES. Her doctor, if he knew, should have told her and cured her, but he did not, and she was allowed to suffer. By chance she came across one of Mrs. Pinkham's books, and in it she found her very symptoms described and an explanation of what they meant. Then she wrote to Mrs. Pinkham, at Lynn, Mass., for advice, feeling that she was telling her troubles to a woman. Speedy relief followed, and vigorous health returned.

Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the story recited above is the true experience of hundreds of women, whose letters of gratitude are to be found on file in Mrs. Pinkham's library.

HE DIED SUDDENLY.

Cannot Be Said That Anybody Was Very Much Surprised.

. A Washington man who has recently returned from a six-months' visit in the great and growing state of Texas was talking to a reporter the other evening over a bottle (carafe) of Potomac water. The writer was chewing on mouthful of it with more or less satis faction when the other man was reminded of a story

"During my stey in Texas," he said 'my business called me off to the northwest, where original customs prevail yet to a great extent. One land case in which I was interested depended largely on its successful handling in finding a certain man from Massachusetts, who had come out there a dozen years be fore, and I was asking a justice of the peace about him.

" 'Ain't never been a man out here by the name of Jinkins from Massachusetts that I've knowed,' he said.

"'Haven't you ever had any people from that state?' I inquired.

"'Thar wuz one about seven years

"'What was his name?" "'Dunno. We jist call him Beanshooter Bill fer short."

"'What became of him?" "'He died sudden.'

"'Ah. that's bad. Death unexpectedly is such a shock to a community.'

"'Well, yes, I reckon it is,' he admitted, with slowness and precision: 'but, you see, Beanshooter's wuzn't exactly unexpected.' "'No?' I exclaimed in surprise.

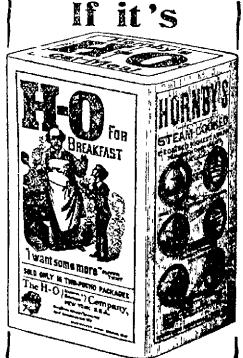

thought you said he died suddenly.' "'I dld,' he hesitated; 'but, you see, it wuzn't exactly unexpectedly. He had stolen a hoss' "-Washington Star.
